# GENERAL YARD POLICIES

Please cooperate with us to implement these yard policies. They are in effect for your safety and for the protection of our environment.

## Haul and Launch

- It will be the boat owner's responsibility to open/close all seacocks. You must inform the marina (in writing) of the location of any underwater mechanisms (i.e. knotmeters) or assume responsibility if they are damaged during haulout.
- Access is required to the interior of all boats when hauled or launched. Combination locks are strongly recommended. If additional time is required to gain access, additional charges may apply.
- Drain plug removal and installation is the responsibility of the owner.

## Launch

- All bills must be paid prior to launch.
- Owner must provide dock lines and fenders for launch. If dock lines are not on boat at launch, lines will be provided and charged to your account.
- Boats must be picked up by the Sunday after launch or transient wet storage rates will be assessed.
- If a boat leaks in the spring, any pumping and/or additional checking by the yard will be charged on an hourly basis. If the boat has to be re-hauled, regular yard rates will apply.

## General
